Localization: All of FIFA's features will be available in English in North America and in Japan. Beginning with FIFA 19 for PlayStation 4 and Xbox One, FIFA will also be available in French, Spanish, German and Italian. The addition of a new "MatchDay" view will allow you to walk through your player personnel in a 3D environment. You'll also be able to view different tabbed views so you can manage players in separate categories. Simulation: FIFA 19 introduced the "Visual Awareness" system, which is designed to give players the ability to focus on the ball at all times and react to the changing direction and velocity of the ball in real-time.
