These curricula are often called “Critical Thinking Curricula.” While this is an encouraging trend, it remains controversial. The new research that I will present here will seek to test the efficacy of Critical Thinking Curricula, and will include three studies: one that examines the cognitive outcomes of college students exposed to an online version of a Critical Thinking Curriculum, one that examines a Critical Thinking Curriculum for a high school population, and one that examines the effects of a college Critical Thinking curriculum on college students. The findings of this new research will hopefully shed light on the efficacy of Critical Thinking Curricula as well as how these curricula can most effectively be delivered to students in the various stages of their academic development.Investors who are trying to time the market or look for short-term profits, don't know where to look for the next bull run or bear run, and would appreciate some unbiased research to help them navigate the market. This is where Benchmark Asset Management's (BAM) Financial Valuation & Strategy (FVS) team comes in. Of course, all forecasters and market timer models have their flaws, but our research-driven model gets to the heart of what the market is all about: Risk vs Return and
