Rated 5 out of 5 by davesmith702 Awesome game! I have never played an online RPG game before. This one is the best one I have played so far. I really like the world with large open areas. Everything is well made and it looks great. The story is good as well. It has a very cool and original feel to it. I'll definitely be in to play this game more. Rated 1 out of 5 by DrGreybeard Not Recommended This game is badly made. And not recommended. The only redeeming feature was the art style and music. But even that is broken. When I was playing another game, this would suddenly start loading music that I had never even heard before. It is also very difficult to get into the game. I tried every single new account i could make and it still took me 4 hours to find a working one. And after that, it still says i'm not good enough to enter the game. I can't exactly recommend a game when the whole thing is broken. Reviews and Ratings by the player community are of great value to us. Thank you to everyone for their input! I am glad i picked it up along with The Darkness, it is a pretty good deal. This game was definitely easier than The Darkness, but with more of an emphasis on team work and tactics, this game is a pretty good addition to the game genre. I will be playing this game alot in the future, it's a pretty fun game. bff6bb2d33
