Warhammer March 17, 2011 Conan The best rip-off movie you've seen in a long time. This was written by Matt Pritchett and hit theaters last year for the worst movie in years. " Conan the Barbarian is the story of a man who is banished from his home for killing his people. With nothing but his strength, the evil magic of the sorcerer Black Queen and the physical strength of a crazy beast, he must return to his homeland and uncover the secrets of the forgotten kingdom of Thulsa Doom. " If you can't feel your ears growing warm after reading that, then you need to see this movie. There is no music, just brutal fights, "old English" language, and the trademark look and feel of Arnold Schwarzenegger. If you feel like you're traveling in time, you're right, it was shot in 1971. When you get tired of the sword and sorcery, there is plenty of sex and nudity. Just like the original trilogy, you have to watch Conan 2 first. This is a definitive movie, you have to see it all the way through. You can't pick and choose with this one. " Do the world a favor and don't watch Conan and Conan 2. If you do, you'll be too busy arguing about which movie is better. Stop making fun of people on the Internet and do the same. Conan 2 is not the worst movie ever. Scarface April 22, 2002 English: This is a tough one, Scarface isn't the best Scarface movie, but the best English language picture ever made. The movie is based on a book, "Scarface: The Story of a Gangster by Lillian Roxon." It was written by Brian Gibson and filmed by Brian De Palma. You'll see everything from a gangster's point of view. We'll be watching the film through several movie reviews. I suggest you see the first Scarface first, it will help with the second film. See the story: "Nick, Tony, and Scar (Tony Montana) are three men who will all fight over Tony's girlfriend Connie (Michelle Pfeiffer)." They rob a guy of \$1 million and is left to die in the desert. In jail, 6d1f23a050
